# New Opportunity Reminder

- **CMS Sepsis Case Abstraction Office Hours**
  - 30 minutes monthly
  - Deb Campbell and Billie Delauder will take questions and walk through complex cases
  - Billie has years of experience and will lead the case reviews and answer your questions
- **TARGET: Whoever at your facility abstracts the cases for CMS data or participates in that process**
- Next date- coming soon. Feb 2026

# 2026 Sepsis Resources

- The KHA is currently enhancing our Sepsis Resource webpage to better serve our member hospitals.
- As we look ahead to **2026**, we invite you to share any Sepsis-related resources, tools, or best practices that could benefit your peers across the state. Your contributions help strengthen our collective efforts in improving patient care.
- If you have questions, need assistance, or would like to submit materials, please reach out to: Billie Delauder at [bdelauder@kyha.com](mailto:bdelauder@kyha.com) or Deb Campbell at [dcampbell@kyha.com](mailto:dcampbell@kyha.com).
- We look forward to collaborating with you!

# Proposed Questions for Maternal Sepsis Review

- Dr. Maureen Marra and I met regarding the OB Sepsis Sub-Committee of the KyMMM Task Force
- Were there earlier signs of infection that could have allowed earlier antibiotic therapy? (i.e. chorioamnionitis)
- Did the patient receive the facility standard antibiotic prophylaxis including any of the following, if indicated?
  - GBS prophylaxis?
  - Cesarean delivery prophylaxis?
  - Third- or fourth-degree laceration prophylaxis?
  - Preterm pre-labor rupture of membranes less than 34 weeks?
- Did the patient require second-line prophylactic antibiotic therapy due to antibiotic allergies?

# Stubborn Metric Post-Op Sepsis

## \*\* Strategies

- Data review for rates of post-op sepsis via KQC
- Data review for rates of HAIs that we have in KQC
- Collecting rates INFORMALLY of HAIs we don't currently have in KQC
- Questions:
  - When your Sepsis Committee meets, do you review and gather what infection led to the sepsis?
  - Do you track/trend this data?
  - Have your HAIs improved over time?
  - How do those rates compare to other hospitals?
  - Has there been any drift in previous improvements?

# Post-Op Sepsis- Strategies

- Pre-op bundles in place
  - What do they consist of?
- Decolonization
  - Universal
  - Only MRSA colonized patients
  - All surgeries
  - Certain surgeries
- Topic specific webinars
- Individual coaching upon request and as appropriate

# Today's presentation

- **Topic- Mechanisms of Response to Recognized Risk of Sepsis**
- **Speakers**-Marianne Dorsey, BSN, RN, CCRN, CPHQ  
Sepsis Program Manager  
UofL Hospital
- Wes Pate BSN, RN  
Sepsis Clinical Program Specialist  
Owensboro Health Regional Hospital

# Future topics

- More on that stubborn metric and how to approach for the coming year
- Inpatient screening data collection
- Survey on ISDDs coming soon!
- Rapid Molecular Diagnostics
- We Are Screening, but Are We Doing It Accurately? (In Urgent Care?) (EMS?)
- Moving Upstream
  - Preventing sepsis through promoting vaccines
  - Educating our families and the community
- Staffing as a component of compliance barriers?
- I'm Going Home- Help Me Not Come Back (Functional and Cognitive Impairment Assessment at DC)
